

Auto-360 Dual

Multifunctional automatic laminator

One side BOPP film laminating and bursting

Two sides BOPP film laminating and bursting

Two sides PET film laminating and cutting (optional)

Features

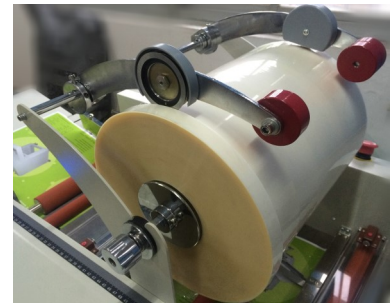

- ◎ Fully automatic laminating machine
- ◎ Double infrared heating system enable fast warm up
- ◎ Automatic create gap/overlap
- ◎ Long extension arm enable big roll film
- ◎ Perforating and slitting on top and bottom film
- ◎ De-curl unit to eliminate paper curling
- ◎ No paper, automatic stopping

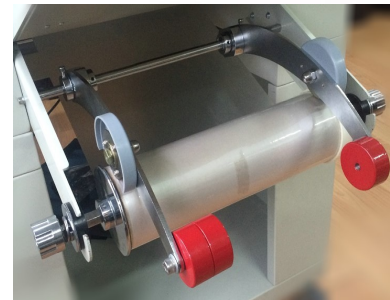

LCD control panel

Technical specifications

- ◎ Max. Laminating Speed: 3.5 m/min
- ◎ Max. Laminating Width: 350mm
- ◎ Max. Nip Opening: 5mm
- ◎ Max Working Temperature: 150°C
- ◎ Warm Up Time: About 5 minutes
- ◎ Laminating Films: BOPP and PET
- ◎ Type of paper: 120—350 gsm
- ◎ Control System: 8-bit CPU control
- ◎ Heating System: Hot Roller Infrared Heater
- ◎ Film core size: 76 mm standard
- ◎ Power Requirements: AC110V-220V, 50/60Hz
- ◎ Power Consumption: 1500W, 10A
- ◎ Machine dimension: 1630 x 675 x 1445 mm
- ◎ Machine weight: 145 kgs
- ◎ Machine packing weight: 200 kgs

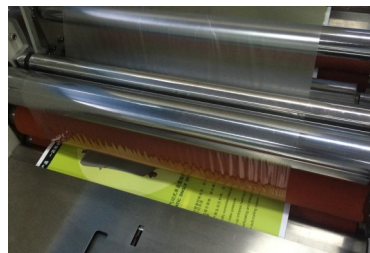

Top perforating and slitting

Bottom perforating and slitting

Automatic feeding system

Double infrared heating system

Automatic bursting system
